Dear Sir or Madam:

The plan for the above referenced project was approved on May 14, 2019 as meeting the appropriate and applied technical standards, guidelines, policies and procedures for arrangement of the onsite wastewater treatment system and water supply facilities. **Said approval showed the design of a replacement OWTS for the proposed Amenia Library renovations/addition. The OWTS is designed for a total 236 GPD.** As a condition of approval, a construction inspection by a representative of the Dutchess County Department of Behavioral and Community Health shall be conducted to determine that construction at the time of inspection was completed in general conformance with the approved plan and any amendment thereof.

Approval of the plan or amendment thereof shall terminate and thereafter be null and void unless construction is undertaken within five (5) years from the date of approval. Resubmission or revised submission of plans and/or associated documents shall be subject to compliance with the technical standards, guidelines, policies and procedures in effect at the time of resubmission.

Two copies of the approved plans have been sent to your Engineer.
